

OpenCart Modules Status Report

Comprehensive tracking sheet for all active landing pages, blocks, and configurations.

Module Name	Status	What Has Been Done	Pending Fixes & Tasks
Blog Module: Settings	Enabled	Professional blogging system integrated; dashboard configured.	Activation key expired/missing; requires registered email and Order ID.
Blog module: Category 3.1.3	Enabled	Category structure active for easy user navigation.	Ensure it is assigned to the correct sidebar layout.
Blog module: Date 3.1.3	Enabled	Chronological archive active; localized for English and Bengali.	Confirm chronological sorting is appearing correctly in frontend.
Featured Posts (Sub) 3.1.3	Enabled	Specific post 'Pros & Cons of Low Budget Refrigerator' selected.	Assign to Home Page or Sidebar layout via Design > Layouts.
Latest posts(sub) 3.1.3	Enabled	Configured to pull 15 posts from AC, Elevator, and Fan categories.	Verify the limit of 15 isn't cluttering the mobile view.
Blog module: Related Post 3.1.3	Enabled	Active for post-specific engagement suggestions.	Must be manually placed on the 'Post' layout page (Content Top/Bottom).
Blog module: Search 3.1.3	Enabled	Active with a limit of 5 search suggestions.	Test search accuracy with specific product-blog keywords.
SEO module blog 3.1.4	Enabled	Meta Title/Description templates defined for English and Bengali.	Activation key expired; requires reactivation for full functionality.
Digitcart Unlimited Product Extra Tabs	Enabled	Positioned before the Review Tab.	Populate actual content (Specs/Manuals) for individual products.
Account	Enabled	Core customer links navigation active.	Confirm visibility on Column Left/Right in Account layout.
Ceiling ac banner	Enabled	Linked to image group; size set to 1920x550.	Manually assign to Ceiling AC layout page via Design > Layouts.
HVAC Banner	Enabled	Linked to image set; size set to 1920x550.	Verify image quality on high-resolution widescreen devices.
Split AC banner	Enabled	Consistency maintained with 1920x550 resolution.	Assign to Split AC layout position.
Category	Enabled	Primary vertical list active.	Assign to Column Left in Category/Product layout pages.
Ceiling ac (Featured)	Enabled	4 models selected; image size 200x200.	Check if 200x200 image size looks sharp on the actual theme.
Home Page (Featured)	Enabled	Limit and size (200x200) configured.	Select products to feature; current selection is empty.
Industrial HVAC (Featured)	Enabled	VRF IFM, Screw Chiller, and Scroll Chiller models selected.	Limit is 4 but only 3 products selected; add one more if needed.
Split AC (Featured)	Enabled	4 top-selling models (Riverine, Inverna, etc.) selected.	Verify 'Smart Defender' badge or text is visible in product titles.
Filter	Enabled	Default refinement module active.	Define groups and values in Catalog > Filters and map to products.
1st block (HTML)	Enabled	Added 'Refrigerator and Freezer' title for both languages.	Expand description with detailed appliance range content.
2nd block (HTML)	Enabled	Banner 'Energy Efficient & Eco Friendly' added.	Check responsiveness of the banner cityscape image on mobile.
3rd block (HTML)	Enabled	Laptops & accessories content added with image placeholder.	Replace 'Computer' image placeholder with actual hardware graphics.

Module Name	Status	What Has Been Done	Pending Fixes & Tasks
4th block (HTML)	Enabled	Smartphone camera and fingerprint tech visual added.	Add descriptive text/specs to complement the close-up image.
5th block (HTML)	Enabled	TV Wi-Fi connectivity content added.	Replace 'Television' placeholders with actual lifestyle shots.
6th Block WM (HTML)	Enabled	Washing machine innovate/convenient content added.	Add product images to the abstract blue graphic area.
7th Block (HTML)	Enabled	Electrical appliances (LED) innovation text added.	Upload actual LED light images to replace placeholders.
8th block (HTML)	Enabled	Microwave oven comfort/functional cooking text added.	Upload actual Microwave/Electric Oven images to the editor.
AC Video Section (HTML)	Enabled	3-column grid structure created.	Embed actual YouTube links or upload demo/installation videos.
AC-Landing-Page-Html	Enabled	IoT/Twinfold Inverter content and 'Explore All' button added.	Check link path for the 'Explore All' button.
celing-ac-read-more-button	Enabled	'SEE MORE' button with minimalist design created.	Link the button to the full Ceiling AC product list.
Custom Carousel Banner	Enabled	Dark blue visual hero element added.	Add 'Heading Title' to guide customers if the banner isn't self-explanatory.
Eap-Landing-Page-Html	Enabled	Dark blue hero element set up.	Differentiate content from Custom Carousel Banner if needed.
Elevator Landing Page html	Enabled	Passenger Elevator benefits and button added.	Upload actual elevator project images to replace the banner placeholder.
Hardware & Sanitary Solution	Enabled	Language tabs and module name set up.	Add actual descriptive content and images (currently blank).
industrial-hvac-read-more-button	Enabled	Rectangular 'SEE MORE' CTA created.	Link to the industrial technical specifications page.
lift new design	Enabled	Modern architectural interior visual and elevator benefits added.	Add technical specs like weight capacity or speed beneath the text.
Mobile-Landing-Page-Html	Enabled	Android/Build quality content and 'Explore All' button added.	Verify the image displays the rear camera setup clearly.
pcb-landing-page	Enabled	IPC class 2 standard and heat resistance text added.	Add a datasheet download link if available for corporate clients.
refrigerator-landing-page-html	Enabled	Direct Cool/Nano Tech content and CTA added.	Upload actual banner image to replace the placeholder.
Social Share	Enabled	English and Bangla tabs ready.	Add social icons or script code (currently blank).
split ac content	Enabled	Title and Tonnage (1, 1.5, 2 Ton) text added.	Link specific tonnages to their respective product filters.
Split-ac-read-more-button	Enabled	Large rectangular 'SEE MORE' button created.	Ensure button link leads to the full Split AC category.
Tv-Landing-Page-html	Enabled	Ultra HD 4K tagline and software optimization text added.	Replace 'Banner Image' placeholder with a high-res 4K TV visual.
Washing machine New Design	Enabled	Image of Walton front-load unit with drying tech added.	Add specs like RPM or Inverter rating in text below the image.
washing-machine-html	Enabled	Semi-automatic wash/air dryer content and CTA added.	Replace placeholder with actual semi-automatic product image.
Product Option Color Image	Enabled	Circle style and dimensions (50x50 to 500x500) set.	Check that source images are >500px to avoid blur in popups.
Category Page Slide	Enabled	Linked to slideshow; size set to 1920x750.	Verify that all images in the banner group match the 1920x750 ratio.
