

Bangladesh University of Professionals

Faculty of Science and Technology Department of Information & Communication Technology (ICT)

Course Title: Internship

Course Code: ICE-3211

Submitted by

Name: Mst. Labonno Rahman Oishy

ID: 2254901107

Walton ID: IA-540

Section: A

Batch: BICE – 2022

Session: 2021-22

Download zip file:

<https://github.com/13Labonno/kubernetes>

Command:

:: Minikube start

minikube start --driver=docker --memory=2200 --cpus=2

:: Minikube -> Docker (PowerShell)

minikube -p minikube docker-env --shell powershell | Invoke-Expression

:: Project folder

mkdir k8s-project

cd k8s-project

mkdir k8s

:: (app.py, Dockerfile, requirements.txt, k8s/*.yaml)

:: Docker image build

docker build -t student-app:1.0 .

:: Redis deploy

kubectl apply -f k8s/redis.yaml

:: App deploy

kubectl apply -f k8s/deployment.yaml

kubectl apply -f k8s/service.yaml

kubectl get pods

kubectl get services

minikube service student-service --url

curl http://<URL>/

curl -X POST http://<URL>/add `

-H "Content-Type: application/json" `

-d '{"name":"Rahim","result":"A+"}'

curl http://<URL>/get/Rahim

kubectl scale deployment student-app --replicas=5

kubectl get pods

minikube dashboard

kubernetes

cd k8s-project

minikube start --driver=docker

minikube -p minikube docker-env --shell powershell | Invoke-Expression

docker build -t student-app:1.0 .

kubectl apply -f k8s/redis.yaml

kubectl apply -f k8s/deployment.yaml

```
kubectl apply -f k8s/service.yaml
```

```
kubectl get pods
```

```
minikube service student-service --url
```
